

Four Seasons of Code

A Student Project Management system

Presented by

Shreyank Gupta

Associate Software Engineer, Red Hat

What student
project?

Sounds familiar?

- I know C/C++/Python and I want to do a project.
- I am interested in network programming, please suggest me something cool to work on.
- I want to contribute, how do i contribute?

Summer Coding

Mentoring woes

Student Project Management

Existing Solutions

- Wiki
 - Too Much Effort
- Trac
 - Not Student Project Focused
- Melange
 - Tied to the Google App Engine
 - (closed source)

Four Seasons of Code

About FSoC

- Developed as a part of Fedora Summer Coding
- Developed for Fedora Summer Coding
- Written in Ruby on Rails
- Code hosted on Github
- Written by
 - Shreyank Gupta
 - Gaurav Meghnani

Features

- User Management
 - Guest
 - Student
 - Mentor
 - Admin
- Task deadlines
- Automated reminders
- Comments and Journals

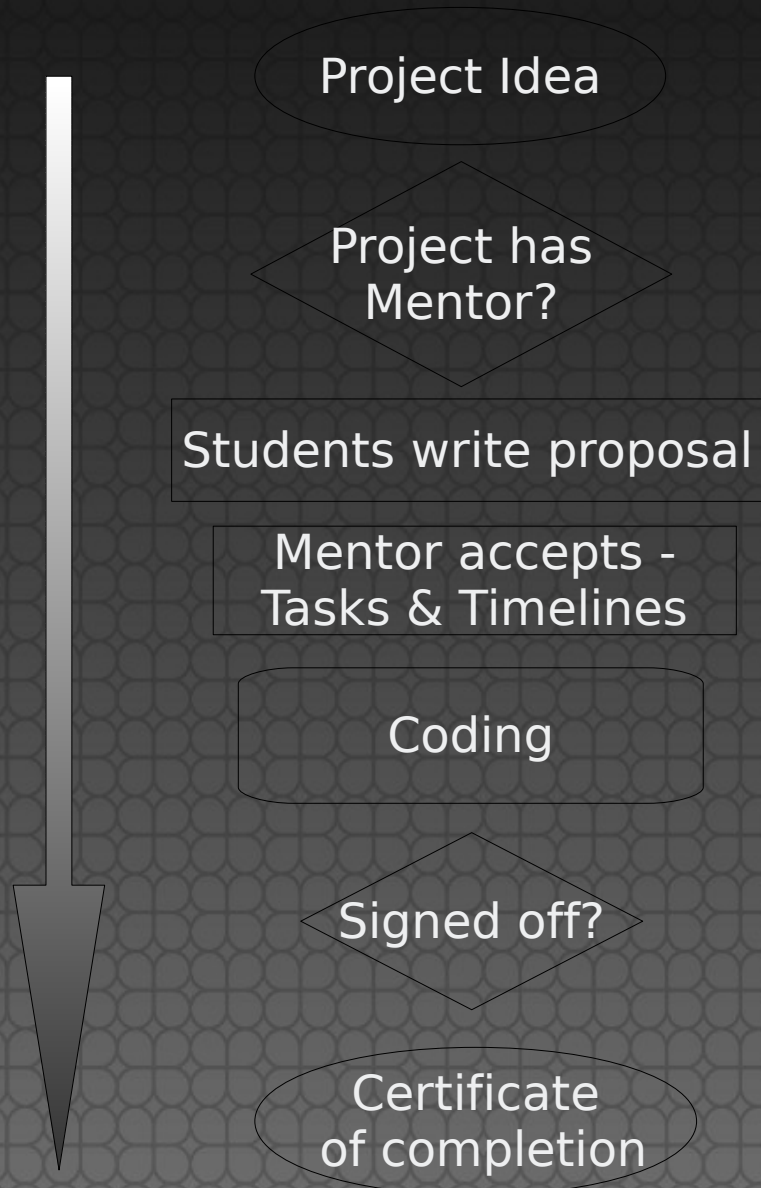

Features

- Calendering
- Dashboard
 - User Dashboard
 - Project Dashboard
- Admin Panel
- Link to Code Repository
- Integration with Fedora Account System

Features

- User Profiles
- Modes
 - Summer Coding
 - Year Round
- Generation of Certificates

Workflow

Organizations

- Fedora Summer Coding
- DGPLUG Summer Training
- Your Organization?

#TODO

- User Experience
- Security Audit
- Customization
- Quality Testing
