Fedora on Rails

..or how I did Ruby on Rails on my Fedora Box

Shreyank Gupta
shreyankg@fedoraproject.org
Why Ruby on Rails?
MVC Architecture

- **Model**
  - Database, WS, etc.

- **View**
  - Templates, layout

- **Controller**
  - Request
    - HTTP, CLI, etc.
  - Response
    - HTML, RSS, XML, JSON, etc.

- **Data**
- **Demand**
Don’t repeat yourself!
Convention over configuration
- Guides - http://guides.rubyonrails.org/
- RailsCasts - http://railscasts.com/
http://api.rubyonrails.org/
